I think we should come up with a plan as to how we will follow-up with these customers. 30 customers out of 48 that we're selling controlled drugs is not a great response rate. I believe these letters went out in the very beginning of October and customers were given 30 days to respond. 2 out of 3 of our top wholesalers have not even responded (ABC and McKesson). Our largest chains – Walgreens and Wal-mart have not responded. I'm thinking we should follow-up with this. For the time being, we are still operating our SOM process business as usual. I would really like to turn this over to Watson with these documents in good order. I would also be concerned explaining to the DEA that we had a process and allowed customers to not respond. Perhaps these are the customers we should be more concerned about. Let's discuss.

Nancy
